

QUANTUM-SAFE MIGRATION WORKSHOP

MOVING FROM AWARENESS TO EXECUTION

24th April, 2026

NTU, Singapore

9:00 AM – 1:30 PM

A focused half-day workshop bringing together senior security, risk, and technology leaders from regulators, central banks, national cybersecurity agencies, commercial banks, fintechs, and payment operators across Singapore, Malaysia, Indonesia, and India — to move the region's quantum-safe migration conversation from awareness to action.

PARTICIPANTS

FEATURED KEYNOTES

KEYNOTE

GOOGLE

*"Google's Quantum-Safe Playbook:
Practical Steps for Staying Protected"*

Mark Johnston · CISO Office, Singapore

KEYNOTE

NTU

*"Quantum Attacks:
How Close Are We, Really?"*

Prof. Anupam Chattopadhyay · CCDS, NTU Singapore

PROGRAMME

HIGHLIGHTS AT A GLANCE

REGULATORS

THE MANDATE LANDSCAPE

Regulators share how national quantum-safe mandates are taking shape, the compliance timelines ahead, and what financial institutions are expected to deliver.

INDUSTRY

FROM THE FRONT LINES

A firsthand look at how payment infrastructure is actively being migrated to quantum-safe cryptography. Real challenges, real progress — not theory.

PANEL DISCUSSION

WHO MOVES FIRST?

Banks and payment operators unpack who drives migration internally, the real blockers, and what it takes to move.

TECHNICAL

TECHNICAL DEEP DIVES

A live demonstration of quantum-safe migration in action for financial services and critical infrastructure.
