

Scaling Systemic Awareness

From Control to Interdependence

Working harder towards Climate Stability -
yet the needle isn't moving?

COUNCIL OF ALL BEINGS

Enter systemic awareness with an immersive facilitated experience, where we step beyond human-centred problem solving -

You will leave with:

- Clarity about your role in the climate ecosystem
- Courage to act from alignment, not urgency
- A shift from managing systems to participating in them

Scaling Systemic Awareness

From Control to Interdependence

This Session Is For:

- 🌱 Climate founders & innovators questioning their assumptions
- 🌱 Policy professionals navigating complexity
- 🌱 Funders exploring regenerative impact models
- 🌱 Leaders experiencing urgency fatigue
- 🌱 Stewards sensing effort isn't translating into transformation
- 🌱 Those seeking belonging in climate work

***If acceleration alone hasn't worked
– let's explore something deeper.***
