

The AI Epidemic: Building for Life Summit

Hosted by Bloomstack on Gatherly

June 11, 2026 · 11AM–5PM ET · Virtual on Gatherly

One day. One virtual venue. One focused conversation about what technology that serves human flourishing looks like — and what we do next.

Event Overview

bloomstack.com/lifsummit

THE EVENT

This Isn't a Webinar. It's a Movement.

The AI Epidemic: Building for Life Summit gathers the people building, funding, teaching, and advocating for technology that serves human flourishing — not the other way around. One day. One virtual venue. One focused conversation about what we do next.

AUDIENCE

Who Belongs Here

This summit is built for anyone whose work—or worry—sits at the intersection of technology and human life.

- **Parents & Families**

Concerned about screen time, social media, and tech's impact on children

- **Founders & Builders**

Creating technology with human values at the center

- **Advocates & Activists**

Policy researchers, ethicists, and community organizers

- **Corporate Leaders**

Executives rethinking AI strategy through a human lens

- **Educators & Counselors**

Teachers, therapists, and school administrators navigating the AI era

- **Healthcare Professionals**

Clinicians and researchers at the intersection of health and technology

- **Investors & Funders**

Capital aligned with conscious tech and human-first outcomes

- **AI-Curious Public**

Anyone who wants to understand what's happening and what they can do

SPEAKERS & CONTENT

Voices That Shape What Comes Next

Our speaker lineup is being finalized with leading researchers, advocates, founders, and educators at the forefront of the technology-and-humanity conversation. Speakers represent the full range of disciplines this crisis demands.

Research & Academia

Social scientists, psychologists, and behavioral researchers documenting technology's impact on human development

Tech Ethics & Advocacy

Pioneers who left or challenged Big Tech to build a safer, more humane digital world

Founders & Builders

Entrepreneurs and engineers building technology with human values baked in from day one

Education & Youth

Educators, counselors, and youth advocates working at the frontline of the AI generation

Policy & Governance

Leaders shaping the regulatory and legislative frameworks for responsible AI

Health & Wellbeing

Clinicians and researchers addressing the mental health and wellness dimensions of our digital lives

Content Themes Across All Sessions

- The AI Epidemic & Its Human Cost
- Education in the Age of AI
- Mental Health, Family & Screen Harm
- Building Ethical Tech from Scratch
- Policy, Regulation & Digital Rights
- The Counter-Movement: What We Build Next
