

HARD PROBLEMS. STRANGE POSSIBILITIES.

QUIET BY DESIGN. RELENTLESS IN THE WORK.

FRIDAY 23 OCTOBER 2026

09:00-19:00 CDT / AUSTIN

The Yard

Hosted by Cody Wayne Burkhardt

4315 Willow Springs Rd | Austin, TX 78745

Some things make more sense when you are in the room.

Builders, researchers, operators, founders and curious minds. Independent teams bringing their own work into a room where unexpected connections can happen. Come for the demonstrations. Stay for the moment something you have just seen changes how you understand the next thing.

Ghost Lab's "dirty works" program works behind the companies: defining problems, assembling teams and adding the technical depth to move difficult work forward. Our Long Human thesis asks what humanity needs next. The companies and the people in the room are the show. We create the conditions for something new to emerge.

THREE WAYS INTO THE UNKNOWN

01 / ASTRONAUT OS

What do you take with you when Earth stops helping?

02 / THE BODY, RECONSIDERED

How much of your potential is still out of sight?

03 / INTO THE FIELD

An operator's problem.
Something hiding in plain sight.

Demonstrating: Vollebak · Evolve · Ghost Lab · KinetikIQ · Measured Motion

FOLLOW WHAT GETS UNDER YOUR SKIN

Rapid fires: HYTRO, Springbok Analytics, AMMORTAL, Labzero, Svexa and Afference. All day: live Afference demos, AMMORTAL chamber sessions (15-25 minutes; sign up at the lab), plus guided use of Proteus Motion and OxeFit.

COME WITH A QUESTION. LEAVE WITH A COLLABORATOR.

RSVP through your host's Luma invitation. Morning exploration welcomes young minds; happy hour includes alcohol-free options. Staffed experiences are subject to availability.

WHAT PARTNERS BRING

Presenting teams: each team owns its demo and staffs its bullpen. Share approved public copy, AV/power/network needs and setup requirements.

Experience partners: Afference runs live demos throughout the day. AMMORTAL offers sign-ups for 15-25-minute chamber sessions. Coordinate guided use of Proteus Motion and OxeFit, opt-in data collection and the connections between assessments. Rehearse integrations together; let guests discover them live.

Hosts and outreach partners: make targeted introductions and share the invitation with its Luma link. Cody carries the narrative between demos. The passion-pitch host keeps each speaker to two minutes and makes room for new voices.
