

AI EXPLORERS

HANDS-ON BOOTCAMP · HALF-DAY

AI Agents

Zero to working agent in three hours

A practical bootcamp where each session builds on the last. By the end you'll have designed, built, and demonstrated your own autonomous AI agent — no coding experience required.

PROGRAMME

12:00 – 12:15 PM

LECTURE

Welcome & The Agent Dictionary

What is an AI agent? We define the core concepts — Harness, Skills, Plugins, and MCP — in plain English. A live demo shows Claude CoWork autonomously navigating a computer and solving a real problem without any human input.

12:15 – 12:40 PM

HANDS-ON

Booting Up Your First Agent

Set up and launch your first local agent using Claude CoWork. Give it a real-world task — read a folder of messy documents, organise the information, and write a clean summary — all completely on its own.

12:40 – 1:10 PM

HANDS-ON

Teaching Your Agent a Skill

Learn how to give your agent a precise, repeatable capability. Upload a document (like a dummy invoice or brief) and build a set of instructions that forces the agent to extract and return exactly the information you need, every time.

1:10 – 1:35 PM

HANDS-ON

Connecting Your Agent to the World

Give your agent real tools to interact with outside services. Learn how to connect it via MCP (Model Context Protocol) so it can query a live database, read documents from cloud storage, or search the web on your behalf.

1:35 – 1:45 PM

BREAK

Coffee & Networking

Grab a coffee, stretch your legs, and swap ideas with fellow builders.

1:45 – 2:30 PM

HANDS-ON

Build Session: Your Custom Agent

Put it all together and build an agent you'll actually use after today. Choose your own use case — an "Email Summariser," "Meeting Notes Assistant," or "Document Analyst." Instructors circulate to help you design, troubleshoot, and run it.

2:30 – 3:00 PM

SHOWCASE

Show & Tell + Q&A

Show the room how your agent planned, acted, and delivered results. Get feedback, ask anything, and leave with a Prompt Cheat Sheet to keep building on your own this week.

PREREQUISITES

- Claude CoWork subscription (free trial available)
- No coding knowledge required

ON THE DAY

- Bring your laptop & charger
 - Wi-Fi credentials provided on arrival
 - All times approximate
-
