

# NONPROFIT

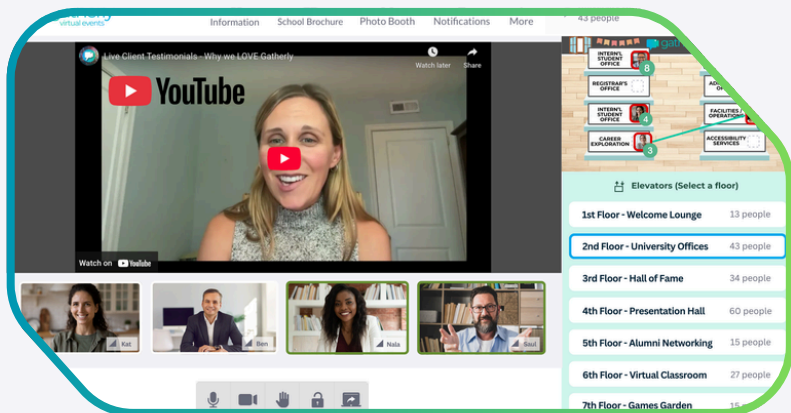

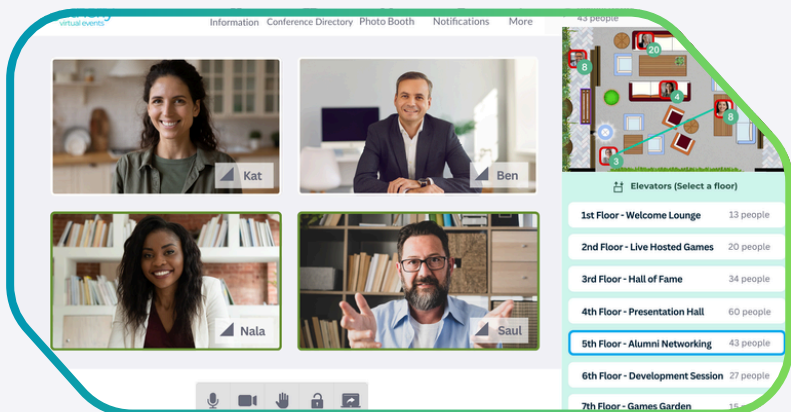

# CONNECTIONFEST

# 2026

The **ultimate networking experience** for nonprofit leaders and the ecosystem.

## Event Partnership Opportunities

**Tuesday, June 9, 2026 | 11AM – 4PM ET**

**100% Online** (but doesn't feel like it)

# Overview

## ***This isn't a webinar.***

Nonprofit ConnectionFest '26 is hosted in **an immersive multi-floor venue** that's built for exploration and high-signal networking.

Most virtual events feel the same—  
a lineup of presentations you half-pay attention to while catching up on everything else.

## **This is different.**

You move around.

You see who's there.

**It feels a lot closer to being in the room than sitting behind a screen.**

## Registration

Explorer Pass - **Free** | Professional Pass (VIP) - **\$99** | Speaker Pass - **Free**

## Important Notes

- All partnerships are curated to ensure alignment and value
- Speaking topics and formats are collaboratively shaped
- Custom packages may be available for strong strategic fits
- Quantities are strictly limited per tier

# Event Promotion Reach

- Givesuite global community
- Gatherly global community
- LinkedIn paid promotion

Combined promotional reach: **200,000** professionals

## Promotion Channels

- CEO Networks
- Nonprofit Community Networks
- International Network

## Presenting Partner Floor Example

**Presenting Partners** receive a branded networking floor where attendees gather to interact with each other and discover your product.

- **Important Note:**
  - The Gatherly Events Team meets Presenting Partners for dedicated calls to **curate** and **co-design** the partner networking floors.

# About the Hosts

[Gatherly](#) is what makes this feel real—it's the environment that lets you move, explore, and interact naturally.

[Givesuite](#) comes at this from a different angle.

Most nonprofit leaders I talk to aren't asking for more tools. They're asking for things to feel simpler... clearer... less scattered.

GiveSuite is built to support that—helping teams manage fundraising, relationships, and communication without juggling disconnected systems.

This event is really an extension of that idea.
