

Internship Program

Who we are

Autodesk's Design and Make Platform powers the creation of everything around us—from the buildings we live in, to the cars we drive, the bridges we cross, and the movies and games that move us. Our software helps innovators design and make anything, anywhere.

Our culture

As Autodeskers, we're optimistic, relentless, brave, ingenious, and trusted—working together as One Autodesk to shape the world and the future.

Why intern with us?

Mentorship that matters

You'll be paired with an intern buddy early in their career, plus get one-on-one coaching from experienced professionals.

Projects with purpose

Interns take on real work that drives impact—for our customers, our company, and the world. You'll even showcase your work to company leaders.

Global connections

With Autodeskers in 47 countries, you'll gain international exposure and build a global network. We also plan meetups so you can connect and innovate together.

Ready to shape the world—and your future?

We offer internships in technology, go-to-market, and corporate functions across 14 countries during our main recruitment seasons.
