Building Bioeconomy Corridors for Bio-Based Agrifood Packaging

13th November 2026
Parc Agrobiotech, Lleida

AgriBioPack:
Supporting Agrifood SMEs to
transition to Bio-Based
Packaging Solutions

Organized by:

With the support of:

ABOUT THE EVENT

AgriBioPack is bringing together agrifood and packaging companies, researchers, technology and solution providers, public and regional organisations, clusters, innovation intermediaries and other stakeholders to explore how **local territorial bioresources can be connected with market demand for bio-based packaging**.

The conference will introduce the AgriBioPack project and its four value-chains, **dairy and meat, fresh produce, fish and seafood, and takeaway and delivery**, and explore how bioresources and agrifood side-streams can become inputs for higher-value bio-based packaging solutions for these value chains.

At the heart of the event is the concept of a **Bioeconomy Corridor**: an organised pathway connecting a territorial bioresource with a viable bio-based packaging use. It considers the complete value-chain from supply, collection and processing, through material development and packaging production, to validation, demand, actors and agreements, infrastructure, investment and public support.

The conference will combine strategic discussions with practical exploration through a European Bioeconomy Solutions **Marketplace**, **networking** opportunities and an interactive **Innovation Camp: Designing and building Bioeconomy Corridors**.

The aim is to build and compare possible corridor configurations and generate practical insights for the future work of AgriBioPack and its **Local Transformation Hubs**.

DESIGNING AND BUILDING BIOECONOMY CORRIDORS

The **Innovation Camp** brings participants together to explore how local bioresources, innovative materials and real packaging needs can be connected to create new bio-based value chains.

Participants will work in small groups, organised around the four AgriBioPack value-chain areas and their territorial contexts:

Dairy and Meat Products - Tipperary, Ireland

Intensive production and manufacture of dairy products

Fruits and Fresh Produce - Lleida, Spain

Agricultural province of fresh fruits and vegetables (>1000 SMEs)

Fish and Seafood - Liguria, Italy

Touristic coastal region (>16M visits per year)

Takeaway & Delivery - Thessaloniki, Greece

Dense urban foodservice and delivery ecosystem

Each group will explore its selected value-chain challenge, identify potential solutions and opportunities, and consider the conditions needed to move from a local resource to a viable packaging application.

The Camp is designed to spark new connections, practical ideas and collaboration between businesses, researchers, technology providers and territorial stakeholders.

EVENT AGENDA

09:00 - 09:30 | Registration

09:30 - 10:00 | Welcome

Welcoming by representatives of **Parc Agrobiotech, Diputació de Lleida and BioHubCat.**

10:00 – 10:30 | Opening Conference

AgriBioPack and the Bioeconomy Corridor concept and introduction to the value chains with representatives of AgriBioPack and its territories (Lleida, Liguria, Tipperary, and Thessaloniki)

10:30 – 11:00 | Panel of experts: Bioplastic innovation, New policy legislations

11:00 – 11:30 | Coffee Break

11:30 – 12:00 | Four Parallel Value-Chain Sessions

Break-up rooms for **a) Dairy & Meat, b) Fresh Produce, c) Fish & Seafood, d) Takeaway & Delivery**

12:00 – 13:00 | European Bioeconomy Solutions Marketplace

Expo of innovations and projects to discover relevant materials, technologies, prototypes and solutions

13:00 – 14:15 | Networking Lunch

14:15–16:15 | Innovation Camp: Designing and building Bioeconomy Corridors

Collaborative workshop sessions bringing together different actors to address the challenges of local bioeconomy corridors in the AgriBioPack territories.

16.15–17.00 | Plenary Reflection and Next Steps

Key insights from the workshop sessions, opportunities and next steps.

GETTING TO LLEIDA

From Barcelona – El Prat Josep Tarradellas Airport

Train + high-speed train

- From Airport Terminal 2, take the R2 Nord train to Barcelona Sants - approximately 20-30 minutes
- From Barcelona Sants, take a high-speed/long-distance train to Lleida-Pirineus - approximately 1-1 h 15 min
- Total journey from Barcelona Airport to Lleida: approximately 1 h 30 min-2 h, depending on the connection
- Lleida-Pirineus Station is located in the city centre
- Tickets and timetables: [Renfe](#)

Airport Shuttle Bus: Aerobus

- From Airport Terminal 1 or Terminal 2 to Plaça Catalunya - approximately 35–40 minutes
- From Plaça Catalunya to Barcelona Sants - approximately 15–20 minutes
- Barcelona Sants to Lleida-Pirineus by high-speed train - approximately 1-1 h 15 min
- Total journey from Barcelona Airport to Lleida: approximately 2-2 h 30 min, depending on connections
- Services operate 24 h
- Tickets: [Aerobus](#)

Taxi

- Taxi from Barcelona Airport to Barcelona Sants - approximately 20–30 minutes, depending on traffic
- Barcelona Sants to Lleida-Pirineus by high-speed train - approximately 1-1 h 15 min
- Total journey from Barcelona Airport to Lleida: approximately 1 h 30 min-2 h, depending on traffic and train connection

PRACTICAL INFORMATION

VENUE

The Conference will take place at **Parc Agrobiotech Lleida**, located on Turó de Gardeny, next to the urban centre of Lleida.

The Parc is a scientific and technological hub focused particularly on the agrifood and ICT sectors, bringing together research, innovation, companies and entrepreneurial activity.

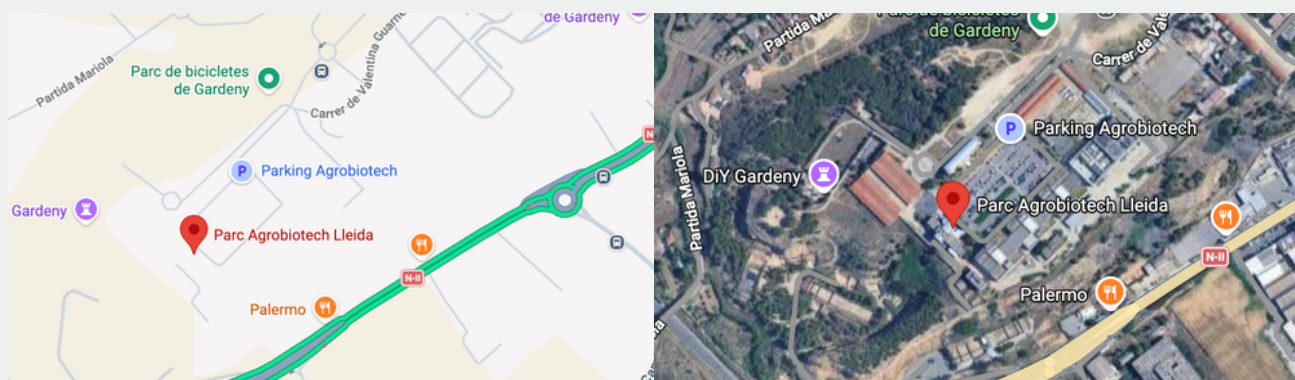

Parc Agrobiotech Lleida

Plaça de les Ciències

Edifici CeDiCo, 1a Planta

25003 Lleida, Spain

[Parc Agrobiotech Lleida – official website](#)

How to arrive

Parc Agrobiotech Lleida is located on Turó de Gardeny, on a hill overlooking the city.

The most convenient way to reach the venue from your hotel is by taxi. We recommend that participants staying at the same hotel share a taxi, where possible.

Public transport is also available to reach the Gardeny area. Participants who prefer to use public transport can check the latest local bus routes and timetables before travelling.

PRACTICAL INFORMATION

ACCOMODATION

Participants are recommended to stay in Lleida city centre, providing convenient access to the railway station, restaurants and the conference venue. **We have negotiated discounted rates at selected hotels for AgriBioPack participants.**
