

AixEd STRATEGY COLLABORATIVE

Hosted by

BOSTON
UNIVERSITY

Join us at the Strategy Collaborative — an invite-only working day shaping where AI in education is heading.

The day before the Summit, **AixEd** hosts the **Strategy Collaborative**: an invite-only working day that brings around 120 leaders from across education to take stock of where AI in education stands and where it is heading.

The insights carry forward with articles in collaboration with Harvard Data Science Review, and they shape the conversation at the Summit the next day.
